INTRODUCTION

The BLU D140 has a known problem for having bad batteries. If the battery dies quickly, or it has a charging problem, it needs to be replaced. This guide provides a quick and efficient solution for replacing a battery for the BLU D140.

TOOLS:

- [iFixit Opening Tools](#) (1)

PARTS:

- [Blu Dash JR D140 battery](#) (1)

Step 1 — Battery

- ⚠ Turn off the phone first. Press the power button continuously for 2-3 seconds to shut down the phone.
- Using a plastic opening tool, pry open the back cover from the slit on the bottom right corner of the phone.

Step 2

- Using a plastic opening tool or finger, pull out the battery.

To reassemble your device, follow these instructions in reverse order.
